New Enhanced Commission

Flexible commission options to suit your business

Our special commission scheme – just for you

Paymentshield offer a commission structure that allows you to choose what's right for your business right now!

Introducing Enhanced Commission

By selecting Enhanced Commission you will receive 45% commission in year one and 15% from year two onwards. That's 60% over the first two years!

Flexible – choose to switch to our new commission option Enhanced Indemnity or continue on your existing commission model.

A fair clawback structure

Paymentshield use a straightline clawback structure which means if a policy is cancelled within the first 12 months of its start date, you wont lose the commission for any months where the customer has already paid a premium

For example, on Enhanced Indemnity if the policy is cancelled within 24 months of the policy start date we will clawback 1/24 of any indemnity commission we have paid for each month we have not received or cleared the appropriate premium.

After the first year all subsequent commission paid would be subject to our standard 12 month clawback structure.

Policy Example – Buildings & Contents Insurance

Assuming an existing commission rate of 27.5% and based on a Buildings & Contents insurance premium of £25.00 per month, excluding IPT.

Enhanced Indemnity

With Enhanced Indemnity you would earn 60% over the first two years which would equal £180 per policy. If you sell an average 4 policies a month over 2 years, that would equate to **£17,280**.

Annual and Initial Indemnity

With Annual and Initial Indemnity you would earn 55% over two years which would equal £165 per policy. If you sell on average 4 policies a month over 2 years, that would equate to **£15,840**.

Double Indemnity

With Double Indemnity you would earn 50% over two years which would equal £150 per policy. If you sell on average 4 policies a month over 2 years, that would equate to **£14,400**.
